Net Weight (approx.):
Cook N'Cold - 39 lbs.
Hot N'Cold - 43 lbs.

Capacity Table

Room Temp.	Bottled Water Temp.	*G.P.H. 50°F. water	Approx. No. of 3 oz. cups/hour of 50°F. Water
70°F	70°F	1.3	55
80°F	80°F	0.8	34
90°F	90°F	0.5	21
100°F	100°F	0.4	17

Capacity: 45 six-ounce cups of piping hot water per hour. 1- 1/2 quart storage tank.

Hot Water Thermostat: Adjustable thermostat with safety limiter.

Hot Water Safer Faucet: Self-closing faucet requires a two-step action that's easy for adults to use, but helps protect small children. All faucets are made of durable polypropylene.

Drip Receptor: The one-piece drip tray lifts out in seconds for easy removal. It's molded for durability and is dishwasher safe.

Electrical: 115 volts, 60Hertz. Water Cooler compressor hp 1/20. 3-wire service cord and polarized plug furnished.

Warranty: (Continental limits of the United States and Canada) Limited 5-year Warranty. Five year on the sealed refrigeration system and most component parts. Detailed warranty certificate enclosed with each water cooler; sample copy available upon request.

Components in this water cooler are lead free as defined by the Safe Water Drinking Act Amendments of 1986, and the Lead Contamination Control Act of 1988. Model Listed by Underwriter's Laboratories to U.S. and Canadian Standards.

Export Model: One year warranty on the sealed refrigeration system and most component parts. Four-year replacement contract on sealed refrigeration system. Detailed warranty certificate with each water cooler; sample copy available upon request.

Cabinet: Molded of heavy-duty, polyvinylchlorine and has UL94-5V rating. The soft, off-white or black color is molded all the way through to help conceal any scratches from years of use.

Cold Water Refrigeration Unit: Convection-cooled condenser. Internally spring mounted, hermetically sealed compressor with automatic overload protector. No lubrication needed. Refrigerant is controlled accurately by capillary tube.

Cold Water Thermostat: Temperature is controlled by an adjustable thermostat easily accessible.

Cold Water Reservoir: Type 300 series stainless steel. External copper refrigerant coil. Reservoir insulation in removable, molded, expanded bead polystyrene.

Float System: Dual mechanical floats include a safety lockout. Contains all non-metallic waterways and does not need electricity to operate.

Hot Water Tank: The 500 watt heating element. One-piece hot tank easy to replace or service without breaking soldered refrigeration connections. The hot tank is type 300 series stainless steel.
